

Grand Family Living In One Of Balwyn's Finest Addresses

4 2 2

Every now and again along comes a home that stands out from the rest; a home defined by its sheer grandeur and opulence yet designed for practical family living. This is such a home. Striking architectural elements are hallmarks of the expansive layout, characterised by its visual flow and expansive living spaces. Magnificent high ceilings accentuate the height and space of the contemporary interior, while lavish fixtures and fittings and sparkling timber floorboards highlight the home's sophisticated sense of style. Formal living and dining enjoy plenty of warmth courtesy of an alluring open fireplace - and given it stands separately from the central living area it enhances its private persona, which is perfect for those wishing to convert the lounge into a media haven! A radiant central living
