

Sophisticated Family Residence

4 2 2

Displaying style and sophistication, this beautifully maintained family home enjoys a pleasant location in a quiet court. The northern sun floods through the expansive living and dining room at the front of the house. The kitchen has natural wood cupboards, quality appliances and a breakfast bar adjacent to a spacious family room. Through the double doors, there is an extensive, covered alfresco area overlooking the beautifully landscaped rear garden.

Upstairs the huge master suite is reminiscent of a resort with bright open space, walk in robe and an ensuite with spa bath, shower and double sinks. The children haven't been forgotten either in this well designed home, with three good sized robed bedrooms, adjacent to a retreat which would make an excellent play area or space to relax and watch a movie.
