

Solid Brick Home with Loads of Potential

2 1 1

Nestled behind a high brick fence, giving total privacy, this well maintained home retains much of the original character, enhanced with modern conveniences. The entry takes you to a bright living room with polished wood floors opening to a Castlemaine stone terrace and featuring an open gas log fireplace. This flows through to a sunny dining room, with views over an expansive backyard, surrounded by tall hedges, with a landscaped alfresco area and plenty of room for children to play or add an extension to the house if needed. The well maintained kitchen has a gas stove, tiled floor and small breakfast bar and adjacent is a separate laundry with rear access. Two robed bedrooms and a large family bathroom with bath, separate shower and toilet complete the accommodation. Lockup garage
