

## Blue Chip Land with Plans & Permits

In one of Canterbury's most tranquil and tree lined streets, amidst beautiful established homes is this very rare opportunity to procure a coveted 539m<sup>2</sup> of blue chip residential land.

Cleared and ready to build on, this is an exciting chance to capitalise on already approved plans and permits for an architectural masterpiece. The thoughtful, bespoke design offers an outdoor living zone of exquisite style and includes a sparkling pool for summer relaxation.

However if you have your own vision then start afresh with something tailored to your needs (STCA).
