Supersized interiors, multiple alfresco areas for all-day sun and a beachfront that is hard to beat are the undeniable headlines of this contemporary tri-level residence. Offering an urban lifestyle tailor-made for busy buyers, there is space galore for families who will love the amenities nearby.

This is a floorplan that just keeps going, where three ground-floor bedrooms (BIRs) and a study zone with polished concrete floors make a striking first impression. Up one floor, the open plan entertaining zone is lavished with light and offers extravagant proportions - it flows into the sleek kitchen boasting twin AEG ovens and a semi-integrated dishwasher, while outdoor areas front and back ensure space to spill outside along with a flow of fresh air.
